• Bangalore,KA

## Summary

With over 2 years of experience in angular development, Rohan Prakash specialize in angular development and is passionate about solving complex problems. Frontend Software Developer with a strong foundation in Angular, passionate about building performant, user-centric web applications. Experienced in crafting scalable UIs, enhancing UX, and collaborating in cross-functional teams to deliver full-fledged digital products.

## Skills

HTML • JavaScript • CSS • SCSS • Angular • Postman • Git • Node.js • C++ • Dev Azure • Problem Solving • Competitive Programming

## Experience

### Amadeus Labs

#### Software Developer I

Bangalore, KA,  
07/2023 - Present

Developed complex IT projects with a focus on timing, functionality, and cost efficiency.

- Designed and developed responsive UI components using Angular.
- Implemented lazy loaded modules and preloading strategies to reduce initial load time.
- Contributed to scalable architecture and production-ready features.
- Skills: RxJS, Lazy Loading, Reactive Forms, RESTful APIs & HTTP Client Module

### Amadeus Labs

#### Software Developer Intern

Bangalore, KA  
02/2023 - 06/2023

Developed features for the airline platform using Angular, focusing on user experience and seamless navigation.

- Automated end-to-end booking flows from flight Search to Payment, enhancing the one-click booking experience.
- Developed "Favorite Search" for airlines – a feature for quick one-click booking.
- Built frontend components with Angular ensuring secure interactions.

## Education

### Lovely Professional University

Bachelor's Degree in Computer Science | GPA: 8.24 / 10

Jalandhar, Punjab  
2019 - 2023

## Projects

### Ecommerce App

<https://github.com/Rohan7546/Ecommerce>

Built a full-stack ecommerce platform with Angular frontend and Node.js backend, supporting user authentication and product management.

- Angular (frontend) + Node.js (backend)
- Used Reactive forms for robust input validation and dynamic form handling.
- Designed responsive UI and ensured mobile-first design with clean component architecture.

### Astro Portfolio

<https://github.com/Rohan7546/astroPortfolio>

Designed and developed a responsive personal portfolio to showcase projects and experience, with a unique astronaut/galaxy-themed UI.

- Integrated GSAP animations for smooth scroll effects and dynamic content transitions.
- Optimized for performance and accessibility, following best practices in modern frontend development.
- Tech Stack: HTML, CSS, JavaScript, GSAP, Swiper.JS

## Awards

Codechef: Top 3 in code chef college level competition, Amadeus: Pacesetter award in Amadeus.
